

Y4 Class News

"We made some banners out of wool with an artist called Heidi. We made portraits out of the wool, pressed them so that the wool stuck together and then rolled them the next day to get all the water out."

"In science we have started to learn about living things. We learnt that animals can be split up into 2 groups - vertebrates and invertebrates. Vertebrates are animals that have a back bone like humans, and invertebrates are animals that don't have a backbone like slugs."

We loved World Book Day!

"We have started a new book called "The Boy at the Back of the Class," which is great fun and we can't wait to read more."

"We have been learning all about fractions in maths such as improper fractions and mixed numbers. We know how to add and subtract them, and how to convert improper fractions into mixed numbers."

Infant Classes Visitor

"We feed the lambs food pellets and they have milk in the morning and at night. They sleep in the barn. Their names are Winnie & Wilma. Nana and grandad also help."
